Position Description

Cyber Threat Analyst

Business unit:	Cyber Threat Response (CTR) Information Assurance and Cyber Security Directorate
Responsible to:	Team Lead: Cyber Threat Analysis
Position purpose:	The Cyber Threat Analyst is responsible for the research and analysis of Cyber-related threats and events, and the subsequent reporting to domestic and international customers.
Direct reports:	Nil
Financial delegation:	Nil
Directorate overview:	The IAC Directorate contributes to the national security of New Zealand by providing technical advice and assistance to Government and organisations with significant national information infrastructures to enable them to protect their information from advanced technology-borne threats. To achieve this, the directorate provides high assurance services; information assurance policy and advice; and high-end cyber security services to detect and respond to such threats.

GCSB vision, mission and values

Our vision

Protecting and Enhancing New Zealand's Security and Wellbeing.

Our mission

The mission of the GCSB is to inform and enhance the decision-making processes of the New Zealand Government in the areas of national security, foreign policy, support to law enforcement, and information assurance by:

- Providing foreign intelligence to support and inform Government decision-making
- Providing an all-hours intelligence watch and warning service to Government
- Ensuring the integrity, availability and confidentiality of official information through the provision of information assurance services to Government
- Improving the protection of the critical national infrastructure from cyber threats
- Assisting other New Zealand government agencies.

Our values

Respect, Commitment, Integrity, Courage.

Information Assurance & Cyber security Directorate vision, mission and goal

Our vision

“Protect New Zealand’s vital information infrastructures”

Our mission

- To be a team of confident professionals, admired for our innovation and regarded both domestically and internationally as leaders in the Information Assurance and Cyber sectors.
- To have a comprehensive understanding of the advanced, technology-borne attempts to target our vital information infrastructures and steal our secrets and intellectual property.
- To be confident about our ability to monitor these threats and either reduce harm directly through timely provision of assurance and technical services or help others to mitigate risks through authoritative policy and expert advice built on our unique capabilities.

Role specification

Key result areas

The position of Cyber Threat Analyst encompasses the following major functions or Key Result Areas:

- Understand the cyber threat environment
- Cyber Threat Analysis
- Delivery of Output

- Contributing to the execution of the IACD Operational Plan

The requirements in the above Key Result Areas are broadly identified below:

Jobholder is accountable for:	Jobholder is successful when:
<p><u>Understanding the cyber threat environment</u></p> <ul style="list-style-type: none"> ■ Maintaining a comprehensive understanding of the cyber threat to New Zealand. ■ Maintaining a comprehensive understanding of networking tool capabilities and infrastructure. ■ Maintaining and improving technical awareness and literacy regarding cyber threats and forensic analysis. 	<ul style="list-style-type: none"> ■ GCSB remains aware of cyber threat actors' intentions and capabilities, and the CTR Unit remains aware of current CND trends and how these might impact New Zealand ■ NCSC remains the point of contact as the area of Cyber expertise and knowledge within New Zealand
<p><u>Cyber threat analysis</u></p> <ul style="list-style-type: none"> ■ Lead the analysis of multi-source evidence to maintain awareness of cyber events and electronic networking events. ■ Collect, collate and analyse cyber events, incidents and investigative leads. ■ Prepare, document, and maintain event reports, requests to/from customers, and policy statements. ■ Manage personal operational tasking, and remain aware of unit-wide operational developments, to ensure timeliness and deliverables. ■ Develop, maintain, and improve technical understanding and analytic techniques. Provide briefings and accounts of these analytic techniques to colleagues, as appropriate. 	<ul style="list-style-type: none"> ■ The capabilities and intentions of adversaries are clearly understood. ■ Analytic observations or answers enable GCSB to provide an enhanced CND service. ■ The risk to NZ infrastructure is understood. ■ Cyber events are recorded, evaluated and responded to in a timely and efficient manner. ■ The escalation of an incident, and initiation of an investigative response, is based on well documented decision making and event reporting. ■ Briefings and reports are appropriately constructed and delivered to ensure a consistent and accurate message is delivered to all stakeholders. ■ The tools and technologies required for research are understood and usable. ■
<p><u>Delivery of output</u></p> <ul style="list-style-type: none"> ■ Produce timely and relevant Cyber-related reporting for customers, based on material obtained from CND systems, intelligence partners, and unclassified sources. ■ Enhance GCSB's relationships and 	<ul style="list-style-type: none"> ■ CTR Unit provides timely and accurate technical advice and expertise. ■ The content of CTR Unit's technical reporting and advice is unambiguous, and the implications of why it has been provided are clear. ■ Team product meets all required quality standards, as specified in relevant policy documentation.

reputation with customers and partners through professional representation and engagement. Ensure that output capabilities and limitations are known to customers where appropriate. Assist customers in understanding the correct mechanisms for tasking the section, and ensure that outputs are tailored to meet customer needs.

- Communicate effectively with technical, legal, executive and leadership teams within GCSB, and within external customer and partner agencies
- Own specific Product and Policy Development projects, as requested by the unit manager.
- Respond to customer enquiries and requests for assistance regarding CND product

- Team product does not violate compliance rules, and any inadvertent breaches notified to compliance and dealt with appropriately.
- Productive and enduring relationships are formed with domestic and international partners. GCSB's Cyber Operations business is enhanced through collaboration with partners and customers.
- CTR unit has a detailed awareness of customers' needs and expectations.
- Customer and partner enquiries are attended to in a timely manner.

Contribute to the execution of the IACD Operational Plan

- Promoting cross-team collaboration through the execution of the IACD Operational Plan and support for operational exchanges between different IACD business units
- Participating in both functional (specific skill-sets) and cross-functional (mixed skill-sets) IACD teams at the request of the IACD Executive Team and Leadership Group.
- Pro-actively demonstrating a willingness to transfer skill sets to other teams in times of operational surge and crisis.
- Making a constructive contribution to the execution of the Operational Plan.

- Team silos are visibly reduced and the focus of staff shifts from their own unit plan to delivering Directorate-wide objectives.
 - Customer feedback suggests that the plan is having a positive effect on IACD's performance through the creation of a more obviously joined-up operating model;
 - Policy and process gaps, which negatively affect IACD operations, are highlighted and rectified.
 - Staff retain an active interest in developments within IACD beyond their normal area of operation.
-

Note:

The above performance standards are provided as a guide only. The precise performance measures for this position will need further discussion between the jobholder and manager as part of the performance development process.
